Professional Summary

Full Stack Developer with 4 years of professional experience building and scaling web applications with Laravel, the TALL stack (Tailwind, Alpine.js, Laravel, Livewire), Angular and React/Vue. Most recently led a team of 4–6 developers on an enterprise POS and ERP ecosystem serving 10–50 business outlets and processing 10,000+ transactions per month. Proven record of improving application performance by 60%+, designing API-first backends for web and mobile clients, and integrating payment gateways that process real revenue. Self-taught developer since 2018, shipping 9+ live production websites, and currently expanding into Python and Django development. Currently working as a freelance, remote full-stack developer.

Technical Skills

- **Backend:** PHP, Laravel, CodeIgniter, RESTful API Design, Laravel Queues & Jobs, Eloquent ORM
- **Frontend:** JavaScript, TypeScript, Angular, React, Next.js, Vue.js, Nuxt.js, Livewire, Inertia.js, Alpine.js, Blade, jQuery, AJAX, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Databases & Caching:** MySQL, PostgreSQL, Redis
- **Cloud & DevOps:** AWS (EC2, S3, SES, SNS), Linux Server Management, Nginx, Apache, Git, GitHub
- **Testing:** PHPUnit, Pest
- **Payments & Integrations:** Stripe, Square, Valutec Gift Card, SSLCOMMERZ, amarPay, Twilio SMS, Mandrill Email, Bulk SMS, Social Authentication (OAuth)
- **UI & Animation:** GSAP, AOS, Lenis, Swiper.js, Slick Slider, Figma, Adobe Photoshop, Adobe Illustrator

Growing skills: Python, Django (full CRUD, models, views, templates, project and application setup)

Professional Experience

Freelance Full-Stack Developer | Remote

Remote (based in Dhaka, Bangladesh) | October 2026 – Present

- Working independently as a freelance, remote full-stack developer, building web applications and APIs for clients with Laravel, the TALL stack, Angular and API development.

Senior Software Developer | ADEVS

Dhaka, Bangladesh | April 2025 – September 2026

- Led a team of 4–6 backend and mobile developers delivering an enterprise POS and ERP ecosystem of 6 connected applications for a confidential restaurant and franchise client.
- Architected the backend and REST APIs powering web apps plus Flutter, Kotlin and Swift mobile apps, defining business logic and API contracts for the mobile team.
- Built the POS, Kitchen Display System (KDS) and Franchise Management apps in Laravel, and the ERP and Team apps in CodeIgniter with Angular.
- Scaled the platform to serve 10–50 business outlets processing 10,000+ transactions per month.
- Improved API and page response times by 60%+ by resolving N+1 queries, adding database indexes, implementing Redis caching and moving heavy tasks to Laravel Queues.
- Built an email and SMS marketing application in Laravel, automating customer campaigns and reports that were previously handled manually.
- Integrated Stripe, Square and Valutec gift card payments, and mentored 3–5 junior developers through code reviews and pairing.

Senior Software Developer | SanMo Ltd

Dhaka, Bangladesh | October 2024 – March 2025

- Customized, extended and maintained multiple premium SaaS products in Laravel to meet client business requirements.
- Reduced production bugs and downtime by strengthening deployment practices, monitoring and code quality with PHPUnit and Pest tests.
- Managed secure deployments on Linux servers with Nginx and AWS (EC2, S3, SES, SNS).

Full Stack Web Developer | Arham Techpro

Dhaka, Bangladesh | October 2023 – September 2024

- Designed and developed full-stack web applications for internal and client projects using Laravel, Livewire, Inertia.js and Vue/React.
- Delivered customized client solutions, consistently completing projects ahead of deadline.
- Maintained company project repositories at github.com/arham-techpro.

Full Stack Web Developer | Watermark

Dhaka, Bangladesh | October 2022 – April 2025 (Full-time to September 2023; Part-time, Saturdays, from October 2023)

- Developed and maintained platforms including Sorbojoya, Amarfoods, Miftaposhi and Voice of Youth across frontend, backend and server maintenance.
- Integrated SSLCOMMERZ and amarPay payment gateways, Bulk SMS and social login for local e-commerce and social business platforms.
- Researched and shipped new features that improved performance and user experience, continuing as a part-time developer alongside full-time roles with employer approval.

Key Projects

PosBangla | Laravel, Alpine.js | posbangla.com

- Point-of-sale application with a Laravel backend and an Alpine.js-driven frontend for fast, real-time checkout.

FarmGuard | Laravel, TALL Stack | farmguard.bd

- Social business platform connecting farmers with agricultural services, built end to end with Livewire and Tailwind CSS.

Reevo Fragrance | Laravel, TALL Stack | reevofragrance.com

- Full e-commerce store with product catalog, cart, checkout and order management.

Shomotay Tarunno | Laravel, TALL Stack | shomotaytarunno.com

- Award program website with nomination and content management features.

Other live work: Amarfoods (Laravel e-commerce), Sorbojoya (CodeIgniter social business platform), Macrofit (CodeIgniter gym website with mobile app backend), Smart Clothing BD (Laravel garment buying house showcase)

Education

B.Sc. in Computer Science & Engineering | World University of Bangladesh | 2023 – 2026 (Expected)

Diploma in Engineering, Computer Technology | Govt. Graphic Arts Institute | 2022 | CGPA: 3.43 / 4.00
